Conventions Adelaide Program

Creating meaningful connections for hosting conventions

The South Australian industry is diverse, innovative and powerful, creating fertile ground for hosting conventions.

A highly strategic initiative, the Conventions Adelaide Program offers the support, networks and world-leading expertise necessary to ensure convention bids and programs are successful.

Conventions Adelaide has formally engaged support from a network of Ambassadors who are each leaders in their respective fields. This includes the Governor of South Australia, State Government, the Lord Mayor of Adelaide, university executives and professors, heads of research institutions and senior corporate executives.

Working with the Adelaide Convention Bureau and industry partners, the Ambassadors advise and open doors within their networks, establishing the support base necessary for successful conference bids and

programs. Importantly, such engagement supports a convention's goal of creating long lasting economic, social and political tails.

The Conventions Adelaide program may also draw on the input of the Professional Conference Organiser (PCO) sector. Through their commitment to the development of South Australia's convention sector, these PCOs may advise and assist clients during the bidding process and once an event is confirmed, provide scope for retention of management support, ground services and sponsorship generation.

The South Australian Government recognises the great economic growth importance of welcoming major conventions to Adelaide and is committed to supporting the Adelaide Convention Bureau in enhancing Adelaide's international profile in the business, professional and scientific world.

South Australia is moving toward a future of sustained economic prosperity, with megaprojects in health, mining, infrastructure development and defence, advancing South Australia's economy and international profile.

- Food, wine and agribusiness, including agtech
- Hi-tech, encompassing cyber, advanced manufacturing, AI, machine learning, quantum computing

Adelaide Sightseeing Tours & Charters

Adelaide Sightseeing is part of the award winning, South Australian owned and operated, SeaLink Travel Group.

As one of Australia's most respected tourism and transport providers, we offer a comprehensive range of mainland tours and experiences through our Groups and Charters division. With both public tours, and the ability to create tailor made itineraries.

Our public tours highlight the diversity of South Australia and visit many popular regions such as Barossa Valley, McLaren Vale, Victor Harbor, Murray River, Kangaroo Island, the City of Adelaide and Adelaide Hills & Hahndorf.

With tailored itineraries, you are only limited by your imagination. We work with many of our State's top experience providers and can create the ideal itinerary to suit budget and group numbers. Just bring us your ideas, or let our experienced Groups Departments suggest what would work for your event.

Ask us about creating a dedicated online booking link to add to your registration page including special delegate discount codes for public tours, and easy online booking & payment options for tailor made touring.

A "one stop shop", Adelaide Sightseeing will work with organisers to offer team building experiences, airport transfers, off site transportation, pre/post touring options, partner programmes and many unique experiences perfect for any conference or incentive event all in the one simple booking.

"Our organisation trialed multiple catering companies before we started working with AVMCatering. They were the first caterers to comprehensively understand our needs, and consistently deliver great results."
